

Trade Federation Market

How To Guide: How to post a listing

Step 1: Select **Add Listing**

Note: Make sure that you are 'Using As' the proper listing agent. You can only list in shops you own or from the account itself.

Step 2: **Choose the Listing Type**

Note: Single Purchase can be bought once. Public Auctions are auctions that show the current price and highest bidder. Sealed Auctions show only the beginning price, and highest bidder wins after the time runs out. Raffles allow people to use a randomizer built into the system to draw their raffles.

Note: If you want to do a stock listing, you MUST use a shop. Make sure you are "Using As" the proper account to display the proper shops or options.
